

Residential Construction

Please include the following on all residential projects. If the project is a substantial remodel or new construction, please provide actual building plans.

- Foundation plan: Including footings, stem wall, depth, rebar and how the rebar will be set
- Elevation drawing for the front view and one side view
- Type of framing
- Type of roof system and rating for snow load
- Type of cladding (siding) and roofing
- Type of interior framing, if any
- Interior support system, if any
- Is a bathroom involved? If yes, a state plumbing permit is required
